

Economy and Fiscal Health

CONTENT OF THIS ELEMENT

The Economy and Fiscal Health Element covers both local and regional economic considerations and offers policies that promote economic resiliency and equity and support green businesses, local small businesses, and employment for local residents. For implementation, a number of these policies will require a more proactive role on the part of the City through a variety of promotion, recruitment and retention efforts.

The following goals, policies and implementation actions were either developed during the *Plan Santa Barbara* General Plan update process, carried over from the Land Use Element in effect in 2011, or were EIR mitigation measures. This is a new element in the General Plan that is operational with the adoption of the General Plan.
